

The Future We Want

We have to work long and hard
To get the future we want
Not this place which is scarred
Mistakes from the past, they still haunt

We need a place to call home
For this planet is not just a loan
Carefree and safe as we roam
Yet we are not alone

We must work together to achieve it
To have somewhere safe
'Cos we need it

What do we want?
Well that's easy
Have a family
Live Peacefully
Not worry about disasters
Or discrimination
War

Racism
Inequality and
Injustice
Pollution and more

We need to act now
Cleanse the world of its ills

The perfect world
May not exist
But our wish
It is simple!

WE JUST WANT A FUTURE!
